EPISODE 236 - RICHARD DILLMAN - W6AWO

Richard Dillman, W6AWO, is the founding member of the Maritime Radio Historical Society, where they preserve the skills, traditions, and folklore of maritime telegraph operators, from the California Bay Area coastal station, KSM. The "Summer of Love" brought Richard to California, in the Sixties, to pursue broadcast engineering and a 30 year career with Greenpeace. W6AWO is my QSO Today.

Ham Radio on Shuttle

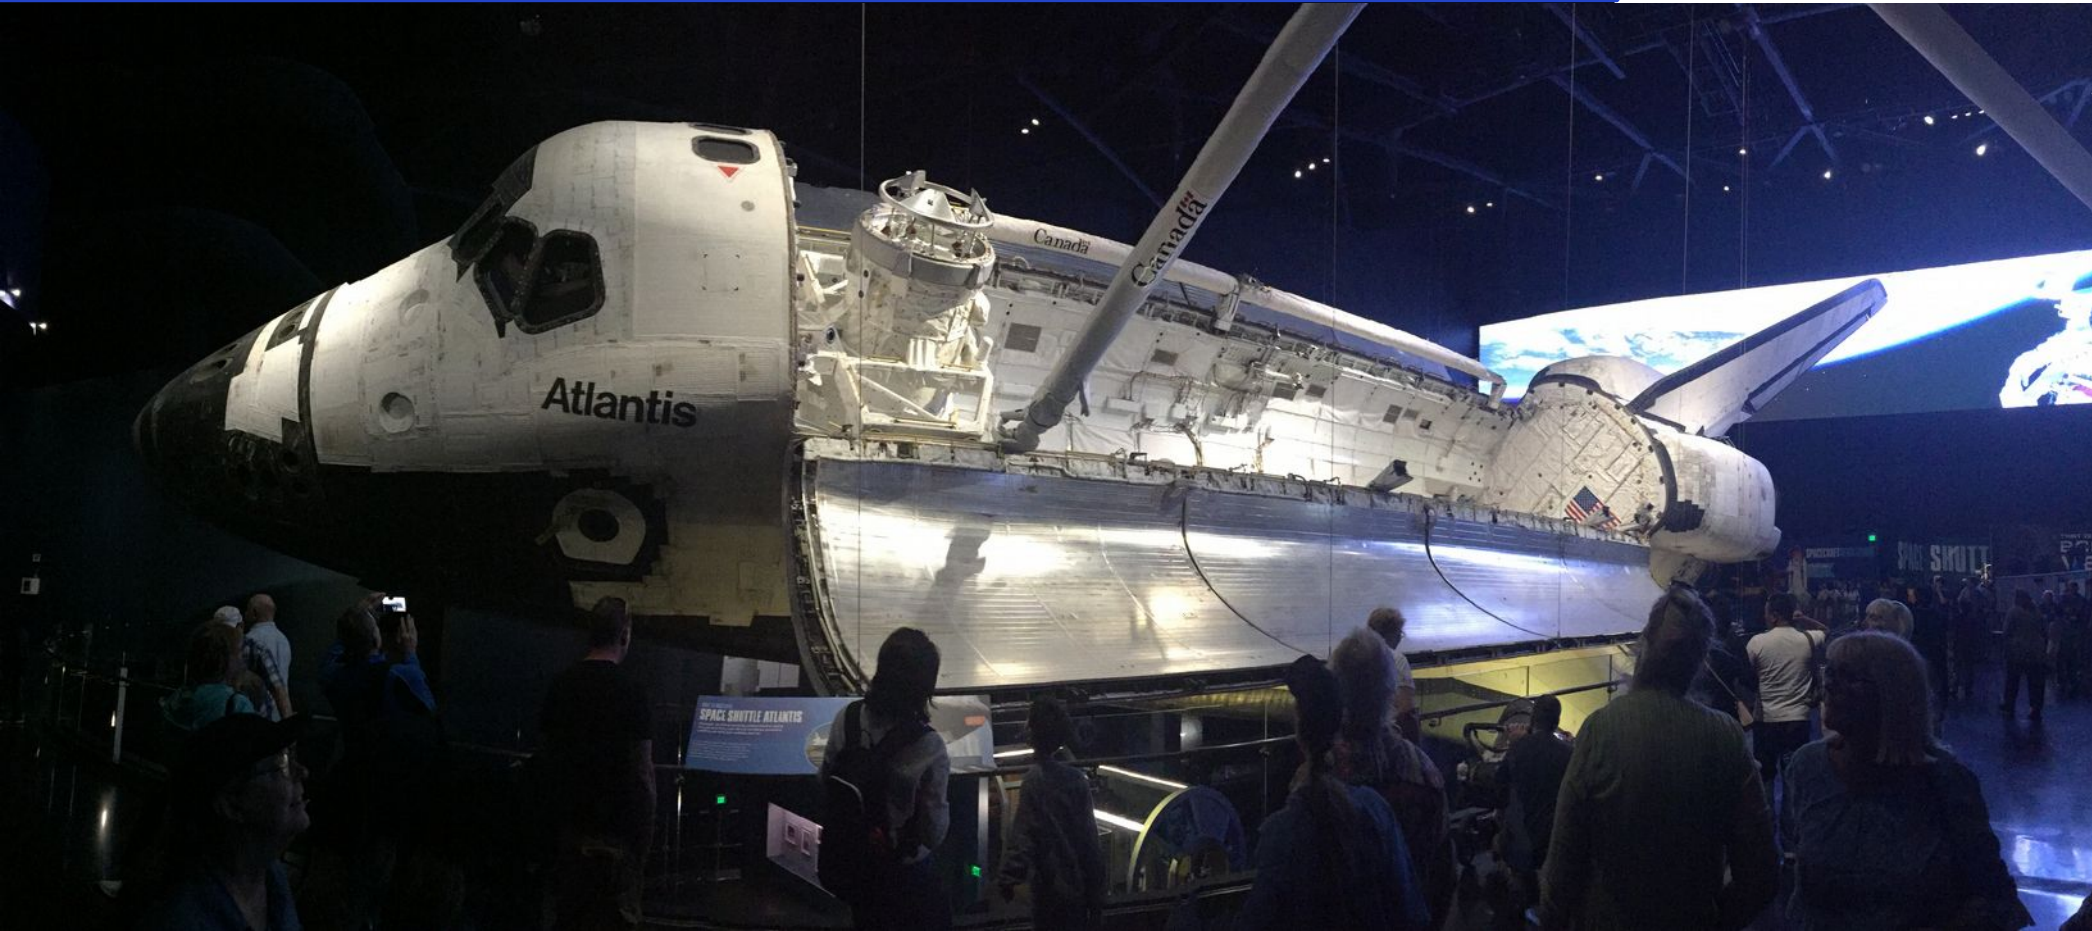

Ham Radio

This was the amateur radio, or ham radio, first used in space by Astronaut Owen Garriott. It opened the door for communication between astronauts and people on Earth outside of "official" NASA channels.
